

HAVE YOUR SAY! PROPOSED SAFE SPACE DEVELOPMENT IN KUILSRIVIER

Working together to support vulnerable residents and strengthen our community.

The City of Cape Town, through its Street People Programme, is proposing to develop a Safe Space facility in Kuilsrivier as part of the City's efforts to provide dignified alternatives to sleeping in public spaces.

Safe Spaces form part of the City's strategy to address rough sleeping by providing structured transitional accommodation together with access to social services, skills development opportunities and reintegration support. The concept design proposes a 130-bed Safe Space facility in Kuilsrivier, providing shelter, basic services, and reintegration support in a safe and dignified environment.

The proposed development is located on Erven 1211 and 1212, Kuilsrivier. The facility will be operated by an organisation with relevant and extensive experience in the rough sleeping sector. An operational plan will be developed to ensure that both the surrounding community and clients of the Safe Space receive optimal support, while responding to the challenges of homelessness and promoting dignity. The facility will include 24-hour security, and support from Law Enforcement patrols will be requested, in line with existing Safe Space operations across the city.

The proposed facility aims to:

- Provide a safe and dignified alternative to sleeping in public spaces
- Offer temporary accommodation for persons experiencing homelessness
- Facilitate access to healthcare, social services and development programmes
- Support access to skills development and employment opportunities
- Promote reintegration with families and communities where possible
