

SPRING FLOWER READINESS NO MOWING SITES

From July/August to end of October/November 2026

Areas in orange indicate year-round no mowing areas or areas where only partial mowing takes place during the year, as these are sites with high biodiversity value. Partial mowing means that only a section of the park is mowed to allow for high intensity recreational use indicated below with a star (*). These parks also have cordoned off permanent no mow sections managed by friend' groups and community members.

Areas in green indicate areas usually maintained by normal mowing schedule throughout the year but are listed as sites where mowing is suspended from July/August to October/November, depending on weather conditions.
